PROFILE SUMMARY

Software engineer with 3 years of expertise in creating captivating and user-centric web experiences. Successfully contributed to the **Blibli.com** e-commerce platform, working on pricing, promotions, seller-side experience. Specializing in frontend development, micro-frontend architecture, and user-centric product development. Experienced in building multi-platform websites using responsive web design. Seeking impactful projects to leverage my skills in software engineering .

EDUCATION

Bachelor of Engineering in Electronics And Communication.   Mysore, Karnataka
JSS Science And Technology University   *CGPA: 8.34/10 | Aug. 2018 – May. 2022*

Pre University   Davangere, Karnataka
Sir MV PU College   *PU State Board: 91.3% | Jul. 2016 – Apr. 2018*

TECHNICAL SKILLS

Languages	: Javascript(ES6+), HTML5, CSS3, Java
Frameworks/Technologies	: Vue.js(Vue2 and Vue3), React.js, Next.js
State Management	: Vuex, Pinia, Redux
Bundlers	: Webpack, Vite
Tools and Technologies	: Micro-Frontend architecture, responsive design, cross browser compatibility
Performance Optimization	: Lazy loading, code splitting
Cloud Platforms	: Google Cloud Platform
CI/CD	: Jenkins
Version Control	: Git
IDE	: VSCode, Figma

EXPERIENCE

Software Engineer (Frontend)   Bangalore
Quinbay Technologies   *March 2022– May2025*

Developer, Pricing and Promotions

Developed and maintained seller e-commerce platforms: The platform development focused on handling promos like **discounts, combos, vouchers, campaigns, and flash sales**

- Designed user interfaces for web applications, ensuring a seamless and engaging user experience.
- Implemented dynamic UI adjustments using **JavaScript** to optimize responsiveness, such as handling viewport changes, event listeners, and interactive elements.
- Developed and managed UI components for **discounts, promotional campaigns, vouchers, free gifts, and free samples.**
- **Migrated services from Vue2 to Vue3**, enhancing code maintainability and developer productivity.
- **Integrated media queries within existing CSS** stylesheets to enhance responsiveness across legacy web pages.
- Utilized **GCP services** like Cloud Functions and **Cloud Storage** to build scalable web applications.
- **Implemented the CI/CD** (Continuous Integration and Continuous Deployment) process by automating code building, testing, and deployment, ensuring faster and more reliable software delivery.
- Collaborated with cross-functional teams, working closely with product managers, designers, QA engineers and backend developers to deliver high-quality products.

KEY ACHIEVEMENTS

- Successfully migrated a **Vue 2 project to Vue 3**, implementing significant performance improvements.

- Led the frontend revamp of critical promotional features, resulting in a **15%** increase in user engagement.

- Enhanced page load speeds by **30%** through optimized bundling and caching techniques.

- Boosted frontend capabilities through Udemy courses, including JavaScript, React.js Vue 2, Vue 3, Webpack, and CSS.
